Julio de 2014

(Incluye las modificaciones derivadas de las Observaciones de la Sesión Ordinaria de la Comisión de Organización y Capacitación desarrollada los días 9 y 16 de junio de 2014, y del Presidente de la Comisión de Organización y Capacitación señaladas en el oficio IEEM/COC/P/041/2014)

P R E S E N T A C I Ó N

De conformidad con lo establecido en el Acuerdo IEEM/CG/04/2014 del Consejo General del Instituto Electoral del Estado de México, el día 12 de marzo del año 2014 "Por el que se aprueba llevar a cabo el Estudio sobre el Perfil de los ciudadanos que No Votaron en la Elección de Diputados a la Legislatura y Miembros de los Ayuntamientos 2012, con base en una Muestra Estadística de Casillas del Proceso Electoral 2012, complemento al Estudio sobre el perfil del votante", coordinados por la Secretaría Ejecutiva General, la Dirección de Organización y la Dirección de Capacitación, llevaron a cabo el presente Estudio con el objetivo de realizar el análisis del perfil de los ciudadanos que no votaron en el Estado de México, y que permitirá complementar los resultados obtenidos del análisis del perfil del votante y ampliar los alcances de ambos, realizando cruces que faciliten el contraste de la información resultante de cada uno de ellos para establecer las correlaciones entre estos fenómenos en cuanto a las variables de género, rango de edad y entidad de origen de los ciudadanos inscritos en la lista nominal de electores que no ejercieron su derecho a votar en la pasada jornada electoral, buscando principalmente las siguientes premisas:

1.- Determinar el perfil del ciudadano no votante en las elecciones locales del 1 de julio de 2012 en la elección de Diputados a la Legislatura y Miembros de los Ayuntamientos 2012, conforme a las variables de edad, género y entidad de origen.

2.- Complementar la información derivada del estudio sobre el perfil del votante y contar con una visión integral del perfil de los ciudadanos en el ejercicio de su derecho al sufragio.

3.- Contar con información que permita identificar áreas de mejora en materia de educación cívica, promoción y difusión de la cultura política y democrática.

4.- Proponer líneas de acción que permitan identificar áreas de oportunidad, que contribuyan a un mejor diseño de las campañas institucionales de difusión de la promoción del voto.

Para el desarrollo de este estudio se utilizó como fuente de información, la Lista Nominal de Electores, en medio digital, del proceso electoral 2012, que obra en resguardo de la Secretaría Ejecutiva General, obteniendo de ésta por parte de la Unidad de Informática y Estadística del propio instituto, únicamente una base de datos con la información complementaria de las 985 casillas derivadas de la muestra original que fueron analizadas en el estudio sobre el Perfil del Votante y que se derivan de la muestra inicial de 1005 casillas; así mismo, se utilizó la base

de datos del Estudio del Perfil del Votante, generada a partir de la captura de la información registrada en los 985 cuadernillos de la Lista Nominal de Electores.

De esta forma la base de datos para el presente estudio está conformada por 223,768 ciudadanos, cifra que se obtuvo conforme a la metodología establecida en el Protocolo de Estudio aprobado mediante el mencionado Acuerdo IEEM/CG/04/2014, por lo que la Unidad de Informática y Estadística del instituto realizó el día 28 de marzo del año 2014, el procedimiento para extraer del archivo digital de la Lista Nominal de Electores utilizada en la jornada electoral del 1 de julio del año 2012, los datos que ya habían sido capturados para la elaboración del Estudio sobre el perfil del votante y se obtuvo de esa manera la base de datos de aquellos ciudadanos que no votaron en la elección del 1 de julio del año 2012.

El análisis de la base de datos obtenida por la Unidad de Informática y Estadística, se realizó con datos relativos a la edad, género y entidad de origen del ciudadano que no votó en la Elección de Diputados a la Legislatura y Miembros de los Ayuntamientos 2012, mediante una tabla matriz de información que contiene los elementos de número y nombre del distrito; cabecera; clave del municipio; nombre del municipio; sección; tipo de casilla; clave de elector que sólo contiene la referencia de las claves relacionadas con la fecha de nacimiento, la entidad de origen y el género de cada uno de los ciudadanos que no votaron.

Una vez que fue analizada la base de datos de la información proporcionada por la Unidad de Informática y Estadística derivada del estudio, se obtuvieron los resultados del perfil del ciudadano que no votó en las elecciones locales del 1 de julio de 2012, conforme a las variables ya referidas, lo cual permitirá la formulación de propuestas de líneas de acción para identificar las áreas de mejora en materia de organización y capacitación electoral, que contribuyan a mejorar la difusión de la promoción del voto.

Finalmente, el presente documento está integrado por un apartado de resultados generales, donde se presentan concentrados y gráficas de resultados de las variables de edad, género y entidad de origen de los ciudadanos que no ejercieron su derecho al voto; además de tablas y gráficos de resultados globales de las variables individuales; así como de manera adicional se anexan las tablas de resultados globales por distrito y municipio del cruce de las siguientes variables: rangos de edad y género; entidad de origen y género; y los del cruce de rangos de edad con entidad de origen y género, y por último las conclusiones y aportaciones generales del estudio, en las que se incluyen las líneas de acción propuestas.

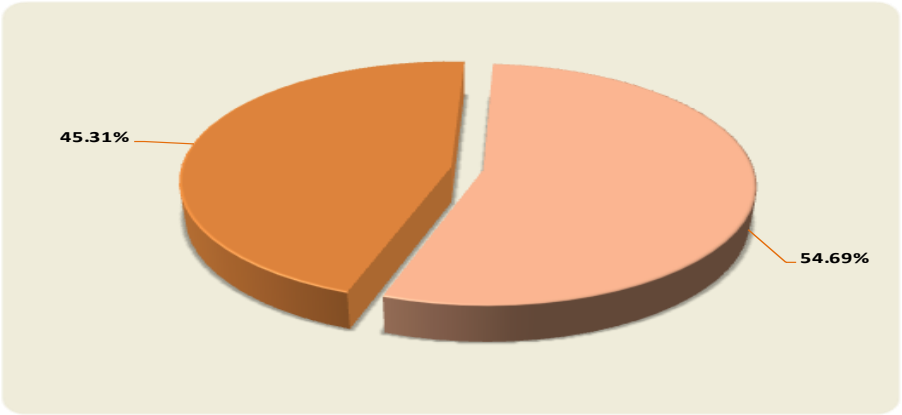
GRÁFICO DEL PERFIL DEL CIUDADANO NO VOTANTE POR GÉNERO

	Género					
Casillas Analizadas	985	Mujeres	101,382	45.31%	Total	223,768
		Hombres	122,386	54.69%		



Derivado del análisis realizado a los datos obtenidos del procedimiento informático de depuración de la información ya capturada procedente de los 985 cuadernillos de la lista nominal de electores que conformaron la muestra estadística de las 1,005 casillas seleccionadas en el estudio del perfil del votante, se observó que en su mayoría los ciudadanos que no ejercieron su derecho al voto fueron del género masculino, ya que de los 223,768 no votantes; 122,386 fueron hombres que representan el **54.69%,** mientras que 101,382 fueron mujeres que equivale al **45.31%**, observándose que entre los porcentajes mencionados existe una diferencia del **9.38%,** superior al **4.28%** que se tiene de acuerdo con los datos estadísticos de género de la lista nominal utilizada en la jornada electoral del 1 de julio de 2012, proporcionada por el Registro Federal de Electores, cuya cifra estatal fue de 10’396,537 electores, 5’420,953 eran mujeres y 4’975,584 eran hombres, que representaban el **52.14% y 47.86%** respectivamente.

Al comparar los resultados obtenidos en el estudio con los datos de la lista nominal se observa una diferencia para el caso tanto de mujeres como de hombres de 6.83% entre los porcentajes (52.14% - 45.31% = 6.83%) y (47.86% - 54,69% = - 6.83%), siendo positivo para el caso de las mujeres y negativo en los hombres.

ESTUDIO SOBRE EL PERFIL DE CIUDADANOS QUE NO VOTARON EN LA ELECCIÓN DE DIPUTADOS A LA LEGISLATURA Y MIEMBROS DE LOS AYUNTAMIENTOS 2012

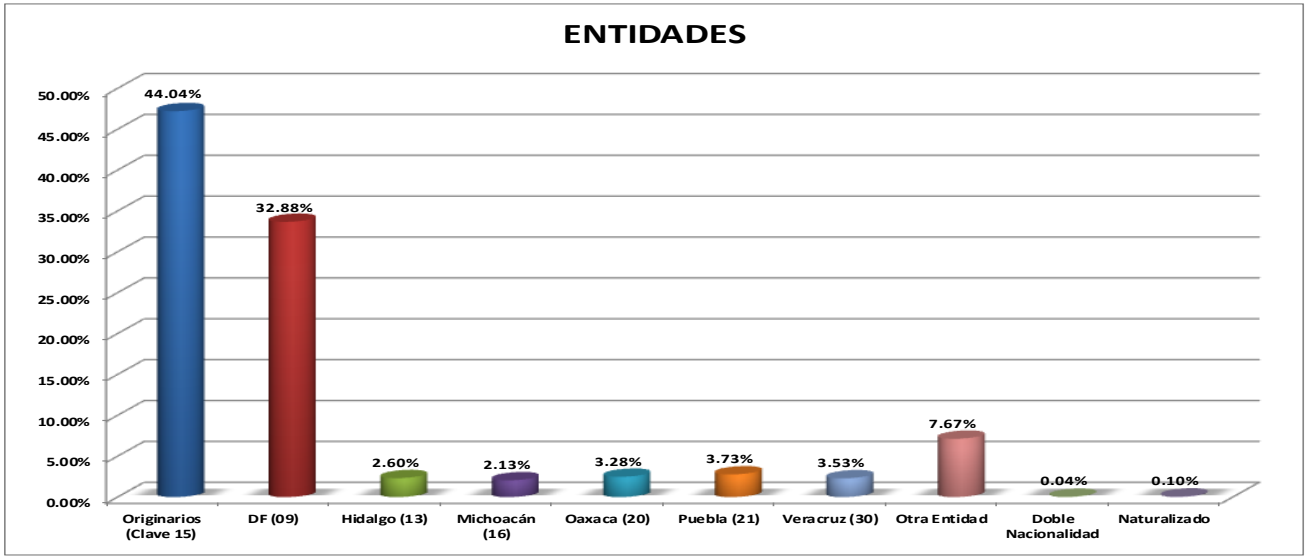
En la categoría de "Otra Entidad" se consideran las entidades de: Aguascalientes, Baja California, Baja California Sur, Campeche, Coahuila, Colima, Chiapas, Chihuahua, Durango, Guanajuato, Guerrero, Jalisco, Morelos, Nayarit, Nuevo León, Querétaro, Quintana Roo, San Luis Potosí, Sinaloa, Sonora, Tabasco, Tamaulipas, Tlaxcala, Yucatán y Zacatecas

GRÁFICO DEL PERFIL DEL CIUDADANO NO VOTANTE POR ENTIDAD DE ORIGEN

Ciudadano No Votante	Originarios (Clave 15)	DF (09)	Hidalgo (13)	Michoacán (16)	Oaxaca (20)	Puebla (21)	Veracruz (30)	Otra Entidad	Doble Nacionalidad	Naturalizado
223768	98557	73571	5819	4775	7342	8336	7894	17153	99	222

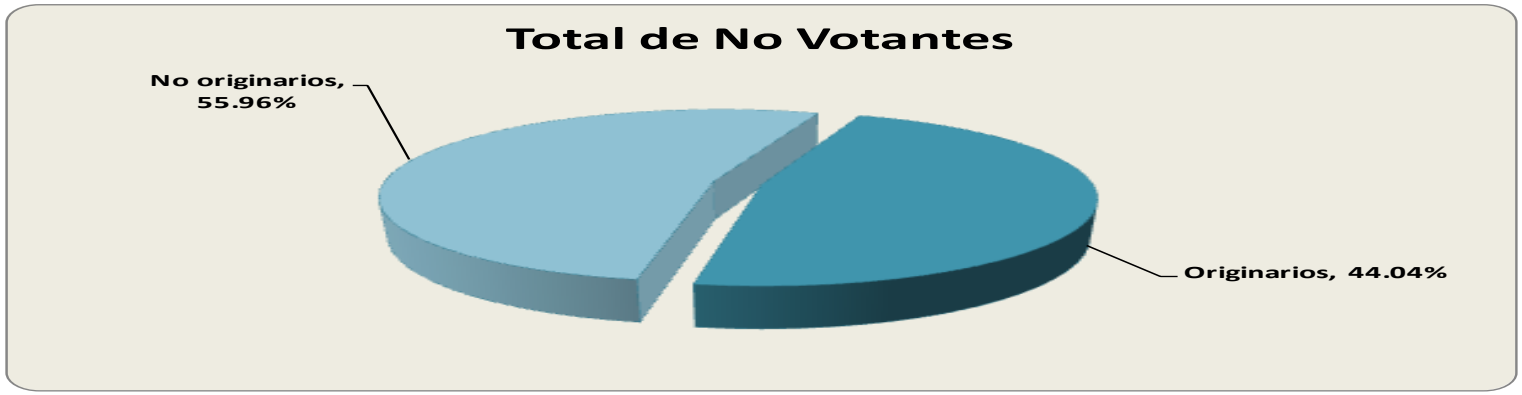


Del total obtenido del procedimiento informático de depuración de la información ya capturada procedente de los 985 cuadernillos de la lista nominal de electores que conformaron la muestra estadística de las 1,005 casillas seleccionadas en el estudio del perfil del votante, que resultó ser de 223,768 no votantes que no ejercieron su voto el día 1 de julio de 2012, de estos al realizar el análisis por entidad de origen resulta que; 98,557 ciudadanos que equivale al **44.04%** son originarios del Estado de México, mientras que 125,211 ciudadanos que representan el **55.96%** no son originarios del Estado de México, de éstos últimos 73,571 ciudadanos que equivalen el **32.88%** corresponden al Distrito Federal y 51,319 ciudadanos que equivalen el **22.94%** corresponden a otras entidades, 99 ciudadanos que significan el **0.04**% corresponden a doble nacionalidad y 222 ciudadanos que representan el **0.10**% corresponden a naturalizados como se aprecia en el gráfico de arriba.

GRÁFICO DEL PERFIL DEL CIUDADANO NO VOTANTE ORIGINARIOS – NO ORIGINARIOS

ORIGINARIOS - NO ORIGINARIOS	
Casillas Analizadas	985

Total de No Votantes	223768
Originarios	98557
No originarios	125211



De los 223,768 ciudadanos no votantes, resultantes del procedimiento informático de depuración de la información ya capturada procedente de los 985 cuadernillos de la lista nominal de electores que conformaron la muestra estadística de las 1,005 casillas seleccionadas en el estudio del perfil del votante, el **55.96%** de los que no ejercieron su voto son no originarios del Estado de México (125,211 ciudadanos) y el **44.04%** son originarios de la Entidad (98,557 ciudadanos). De lo anterior se observa que la diferencia entre los porcentajes de ciudadanos no votantes no originarios y originarios es de **11.92%,** que resulta notablemente superior a la diferencia de **6.8%** en los porcentajes de ciudadanos en lista nominal según su condición de no originarios u originarios, de acuerdo con los datos estadísticos por entidad de origen de la lista nominal utilizada el 1 de julio de 2012, de los cuales 5’551,528 (53.4%) eran no originarios y 4’845,009 (46.6%) originarios

Dentro de este apartado de no originarios, resalta la cantidad de no votantes oriundos del Distrito Federal, ya que del 55.96% de no originarios, el **32.88%** corresponden al Distrito Federal.

ESTUDIO SOBRE EL PERFIL DE CIUDADANOS QUE NO VOTARON EN LA ELECCIÓN DE DIPUTADOS A LA LEGISLATURA Y MIEMBROS DE LOS AYUNTAMIENTOS 2012

CUADRO DE FRECUENCIAS **POR DISTRITO** DEL PERFIL DEL CIUDADANO NO VOTANTE **POR RANGO DE EDAD**

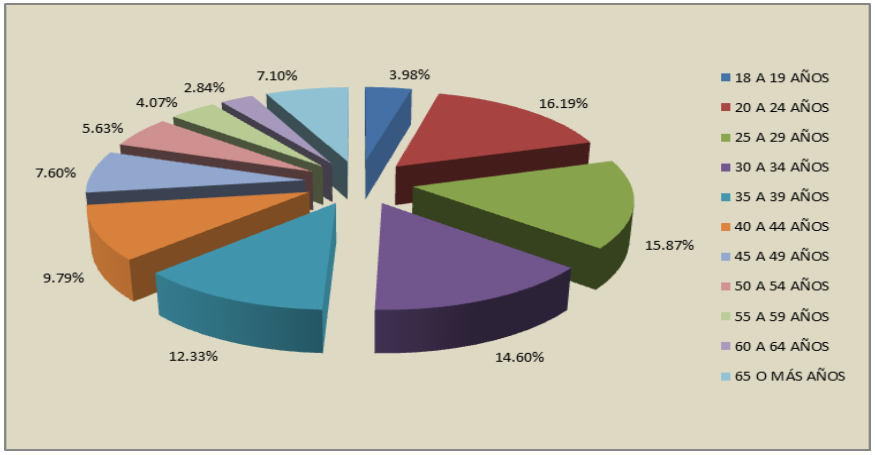
GRÁFICO DEL PERFIL DEL CIUDADANO NO VOTANTE POR RANGOS DE EDAD

Listas Nominales Analizadas	985

Total de Ciuadadanos NO Votantes	223,768



Resultado del procedimiento informático de depuración de la información ya capturada procedente de los 985 cuadernillos de la lista nominal de electores que conformaron la muestra estadística de las 1,005 casillas seleccionadas en el estudio del perfil del votante, que arrojó el total de 223,768 no votantes; el rango de edad de entre 20 y 24 años son los que más no asistieron a votar con un 16.19%, en segundo lugar el de 25 a 29 años con 15.87%, en tercero el de 30 a 34 años con 14.60%, en cuarto el de 35 a 39 años con 12.33%, en quinto lugar de 40 a 44 años de edad con 9.79%, en sexto lugar el de 45 a 49 años con 7.60%, en séptimo lugar el de 65 a más años con 7.10%, en octavo lugar el de 50 a 54 años con 5.63%, en noveno lugar el de 55 a 59 años con 4.07%, en décimo lugar el de 18 a 19 años de edad con 3.98%, (que se integra solamente por dos años), y por último en el onceavo lugar de 60 a 64 años de edad con 2.84%, por lo que los porcentajes más altos por rango de edad de los ciudadanos que no asistieron a votar, osciló en el rango de edad entre 20 y 39 años, ya que se obtuvo un porcentaje de entre 16.19% a 12.33%, y los porcentajes más bajos en los rangos de edad de 18 a 19 años y 60 a 64 años en razón de que sus porcentajes fueron de 3.98%, y 2.84% de no participación en la jornada electoral del 1 de julio de 2012.

Es importante mencionar que de acuerdo a los datos estadísticos proporcionados por el Registro Federal de Electores de la lista nominal utilizada en la jornada electoral del 1 de julio de 2012, cuya cifra estatal fue de 10’396,537 electores y la integración de ésta por rangos de edad era la siguiente: 419,036 ciudadanos que representaba el **4.03**% del total de la lista nominal de electores correspondían a edades de 18 y 19

años; 1’417,235 ciudadanos que representaban el **13.63%** del total de la lista nominal de electores correspondían a edades de 20 a 24 años; 1’378,224 ciudadanos que representaban el **13.26%** del total de la lista nominal de electores correspondían a edades de 25 a 29 años; 1,313,449 ciudadanos que representaban el **12.63%** del total de la lista nominal de electores correspondían a edades de 30 a 34 años; 1’259,038 ciudadanos que representaban el **12.11%** del total de la lista nominal de electores correspondían a edades de 35 a 39 años; 1’096,486 ciudadanos que representaban el **10.55%** de la lista nominal de electores correspondían a edades de 40 a 44 años; 920,432 ciudadanos que representaban el **8.85%** de la lista nominal de electores correspondían a edades de 45 a 49 años; 751,534 ciudadanos que representaban el **7.23%** de la lista nominal de electores correspondían a edades de 50 a 54 años; 577,192 ciudadanos que representaban el **5.55%** de la lista nominal de electores correspondían a edades de 55 a 59 años; 423,860 ciudadanos que representaban el **4.08%** de la lista nominal de electores correspondían a edades de 60 a 64 años, y por último 840,051 ciudadanos que representaban el **8.08%** de la lista nominal de electores correspondían a edades de 65 o más años.

Observándose las diferencia siguientes entre los porcentajes de la lista nominal y los porcentajes obtenidos en el estudio:

Rango de Edad	**Porcentaje de la Lista Nominal**	**Porcentaje obtenido en el Estudio**	**Diferencia**
18 y 19 años	4.03%	3.98%	**0.05%**
20 a 24 años	13.63%	16.19%	**2.56%**

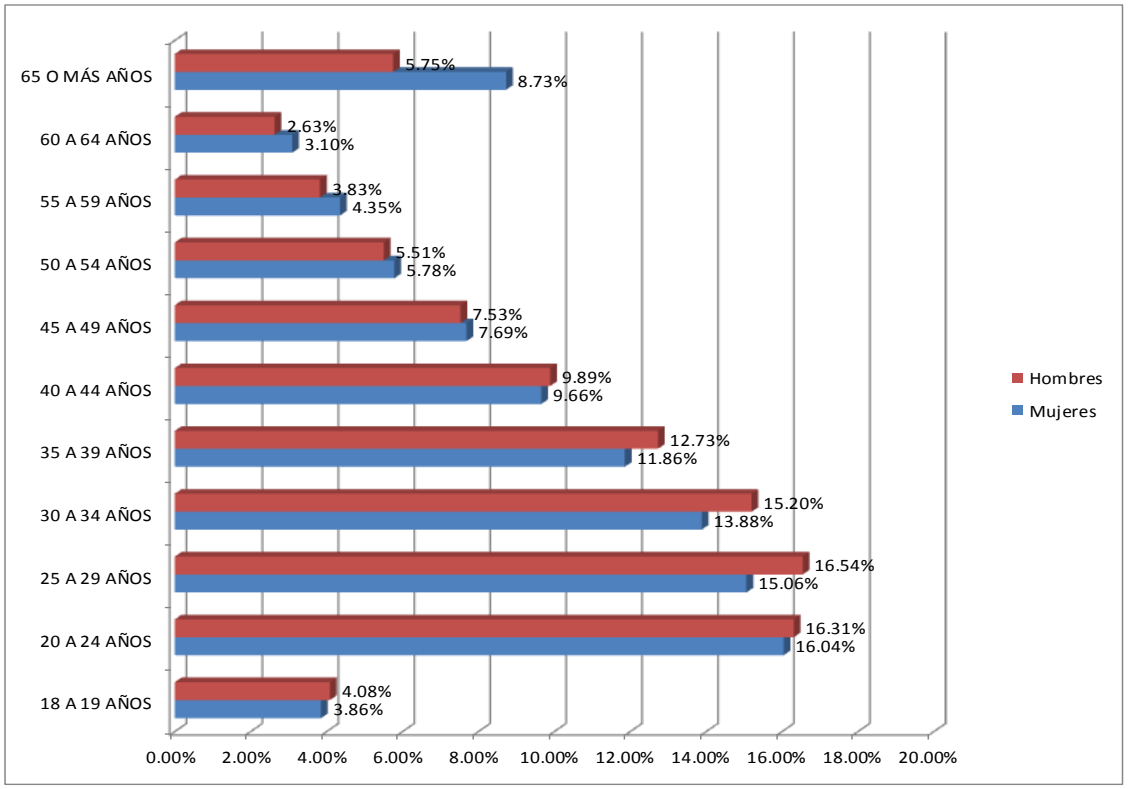
65 o más años	8.08%	7.10%	**0.98%**
TOTAL	100.00%	100.00%	

En donde la desviación mayor en la variación en los porcentajes por rangos de edad entre la lista nominal y los obtenidos en el estudio, se encuentra en el rango de edad de 25 a 29 años con el 2.61% y la menor variación en el rango de 18 y 19 años con el 0.05%. Lo que da certidumbre y confianza a los datos obtenidos en el estudio, aún y cuando en los rangos de edad de 20 a 34 la diferencia es importante.

ESTUDIO SOBRE EL PERFIL DE CIUDADANOS QUE NO VOTARON EN LA ELECCIÓN DE DIPUTADOS A LA LEGISLATURA Y MIEMBROS DE LOS AYUNTAMIENTOS 2012

CUADRO DE FRECUENCIAS Y GRÁFICA DEL PERFIL DEL CIUDADANO NO VOTANTE POR RANGO DE EDAD Y GENERO

Rango de Edad y Genero	18 A 19 AÑOS	20 A 24 AÑOS	25 A 29 AÑOS	30 A 34 AÑOS	35 A 39 AÑOS	40 A 44 AÑOS	45 A 49 AÑOS	50 A 54 AÑOS	55 A 59 AÑOS	60 A 64 AÑOS	65 O MÁS AÑOS	Total
Mujeres	3.86%	16.04%	15.06%	13.88%	11.86%	9.66%	7.69%	5.78%	4.35%	3.10%	8.73%	101382
Hombres	4.08%	16.31%	16.54%	15.20%	12.73%	9.89%	7.53%	5.51%	3.83%	2.63%	5.75%	122386
Porcentaje Estatal obtenido en el Estudio	3.98%	16.19%	15.87%	14.60%	12.33%	9.79%	7.60%	5.63%	4.07%	2.84%	7.10%	223768



Al efectuar el análisis por rango de edad y género, el rango de edad donde existieron más ciudadanos que no votaron, fue para las mujeres de entre 20 a 24 años, con el **16.04%** y para los hombres lo fue en el rango de 25 a 29 años con un porcentaje del **16.54%,** en segundo lugar en las mujeres fue el de 25 a 29 años con el **15.06%** y en los hombres fue el de 20 a 24 años con el **16.31%**, en tercer lugar en las mujeres fue el de 30 a 34 años con el **13.88%** y en los hombres fue el de 30 a 34 años con el **15.20%**, en cuarto lugar en las mujeres fue el de 35 a 39 años con el **11.86%** y en los hombres fue el de 35 a 39 años con el **12.73%,** en quinto lugar en las mujeres fue el de 40 a 44 años con el **9.66%** y en los hombres fue el de 40 a 44 años con el **9.89%**, en sexto lugar en las mujeres fue el de 65 a más años con el **8.73%** y en los hombres de 45 a 49 años con el **7.53%**, en séptimo lugar en las mujeres fue el de 45 a 49 años con el **7.69%** y en los hombres de 65 o más años con el **5.75%**, en octavo lugar en las mujeres fue el de 50 a 54 años con el **5.78%** y en los hombres fue en el mismo rango con el **5.51%**, en noveno lugar en las mujeres fue el de 55 a 59 años con el **4.35%** y en los hombres de 18 a 19 años con el **4.08%**, en décimo lugar en las mujeres fue el de 18 a 19 años con el **3.86%** y en los hombres fue del 55 a 59 años con el **3.83%%** y por último, en el onceavo lugar de 60 a 64 años de edad con el **3.10%** para el caso de las mujeres y de los hombres con el mismo rango de edad con **2.63%.**

En los resultados por rango de edad y género, se aprecia que los ciudadanos que mayormente no ejercieron su derecho a voto, se encuentran en el intervalo de edad de 25 a 29 años para el caso de los hombres, en las mujeres es en el intervalo de edad de 20 a 24 años las que tienen una mayor falta de participación, posteriormente los hombres en las edades de 20 a 24 años de edad, y las mujeres en las edades de 25 a 29 años, lo cual indica que si bien es cierto que en el Estado de México la incidencia de ciudadanos no votantes es mayor en los rangos de edad entre 20 y 29 años, también lo es, que al analizar el no votante por género, éste presenta ciertos cambios; es decir, las mujeres y los hombres entre 20 y 29 años de edad actúan de manera diferente, siendo mayor en los hombres.

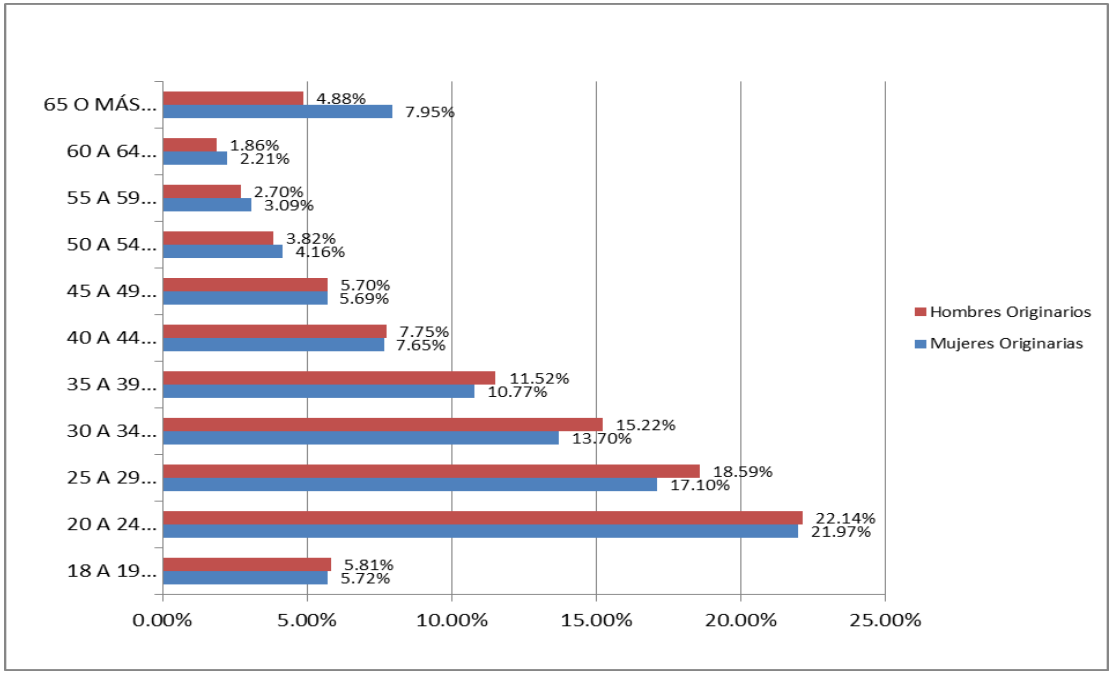
GRÁFICA POR RANGOS DE EDAD DE MUJERES Y HOMBRES **ORIGINARIOS**



Del cruce de las variables rango de edad, género y ciudadanos originarios que no votaron el 1 de julio del 2012, se aprecia que tanto en mujeres como en hombres los porcentajes de ciudadanos que no votaron con mayores porcentajes obtenidos en el presente estudio a nivel estatal y es el intervalo de 20 a 24 años donde se tiene el más alto y a partir de éste, va decreciendo mostrando crestas significativas en sus rangos, conforme van aumentando las edades, es decir, que la no participación de los ciudadanos originarios del Estado de México por rangos de edad fue mayor en los jóvenes que en los ciudadanos de mayor edad. Asimismo los porcentajes son mayores en los hombres que en las mujeres hasta la edad de cuarenta y nueve años, para después invertirse tal situación y ser las mujeres de cincuenta años en adelante donde se presentan los porcentajes más altos de no votantes.

ESTUDIO SOBRE EL PERFIL DE CIUDADANOS QUE NO VOTARON EN LA ELECCIÓN DE DIPUTADOS A LA LEGISLATURA Y MIEMBROS DE LOS AYUNTAMIENTOS 2012

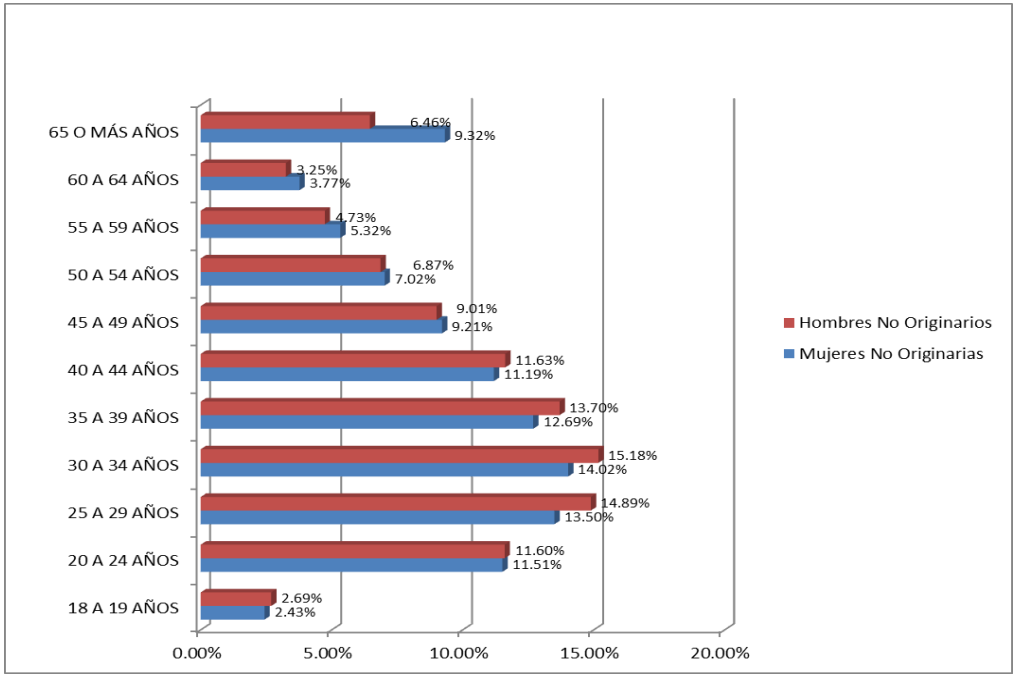
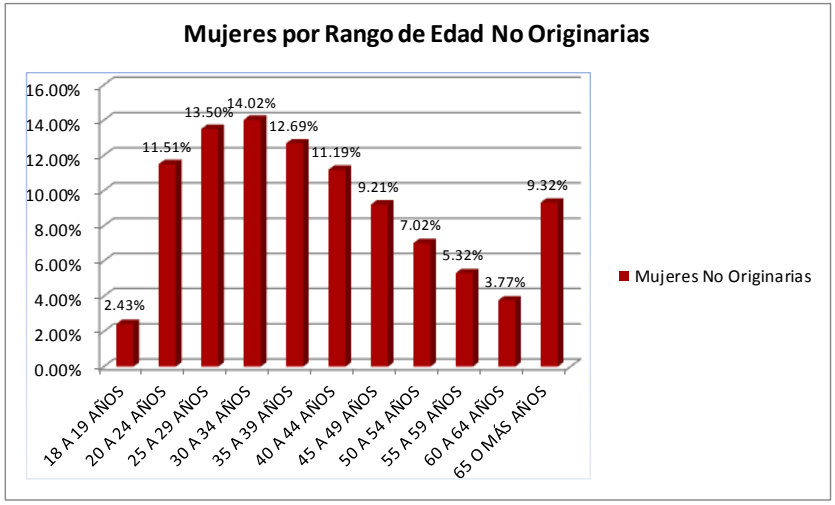
GRÁFICA POR RANGOS DE EDAD DE MUJERES Y HOMBRES **NO ORIGINARIOS**

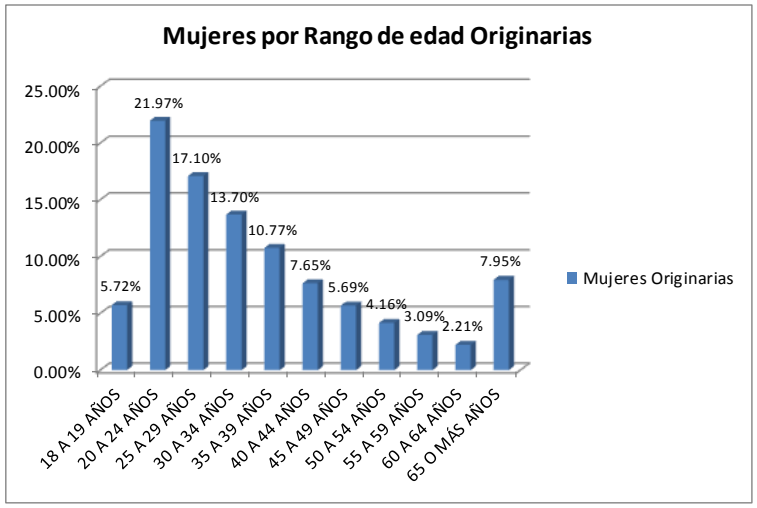


Del cruce de las variables por rango de edad y género de ciudadanos no originarios que no votaron el 1 de julio del 2012, se aprecia que tanto mujeres como hombres alcanzan el porcentaje más alto de no votantes en el intervalo de 30 a 34 años, ambos géneros muestran una relativa constante de falta de participación en los rangos consecuentes y subsecuentes, y decrece conforme aumentan o disminuyen las edades, es decir, que la no participación de los ciudadanos no originarios del Estado de México por rangos de edad fue mayor en los jóvenes que en los ciudadanos de mayor edad. Asimismo los porcentajes son mayores en los hombres que en las mujeres hasta la edad de cuarenta y cuatro años, para después invertirse tal situación y ser las mujeres de cuarenta y cinco años en adelante donde se presentan los porcentajes más altos de no votantes.

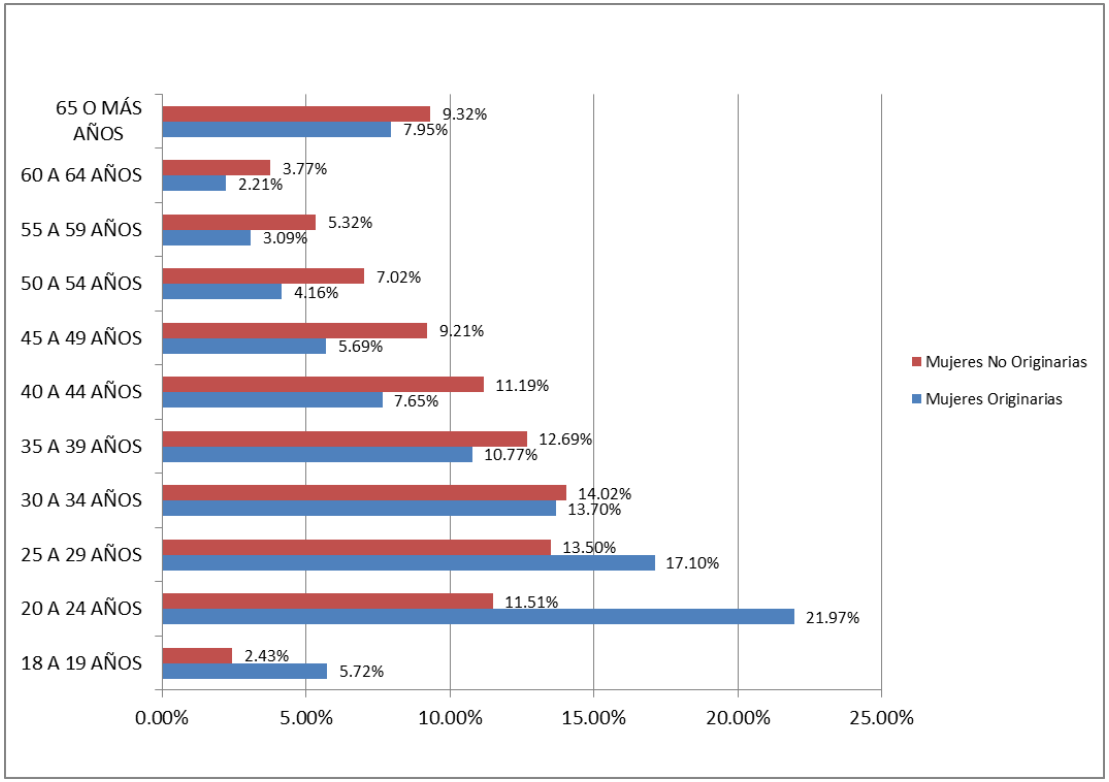
CUADRO DE FRECUENCIAS Y GRÁFICAS, POR **RANGOS DE EDAD, DE LAS MUJERES ORIGINARIAS Y LAS NO ORIGINARIAS** QUE NO VOTARON

Rangos de Edad y Genero	18 A 19 AÑOS	20 A 24 AÑOS	25 A 29 AÑOS	30 A 34 AÑOS	35 A 39 AÑOS	40 A 44 AÑOS	45 A 49 AÑOS	50 A 54 AÑOS	55 A 59 AÑOS	60 A 64 AÑOS	65 O MÁS AÑOS
Mujeres Originarias	5.72%	21.97%	17.10%	13.70%	10.77%	7.65%	5.69%	4.16%	3.09%	2.21%	7.95%
Mujeres No Originarias	2.43%	11.51%	13.50%	14.02%	12.69%	11.19%	9.21%	7.02%	5.32%	3.77%	9.32%
Total	3.86%	16.04%	15.06%	13.88%	11.86%	9.66%	7.69%	5.78%	4.35%	3.10%	8.73%





GRÁFICA POR RANGOS DE EDAD DE MUJERES **ORIGINARIAS Y NO ORIGINARIAS** QUE NO VOTARON DEL ESTADO DE MÉXICO

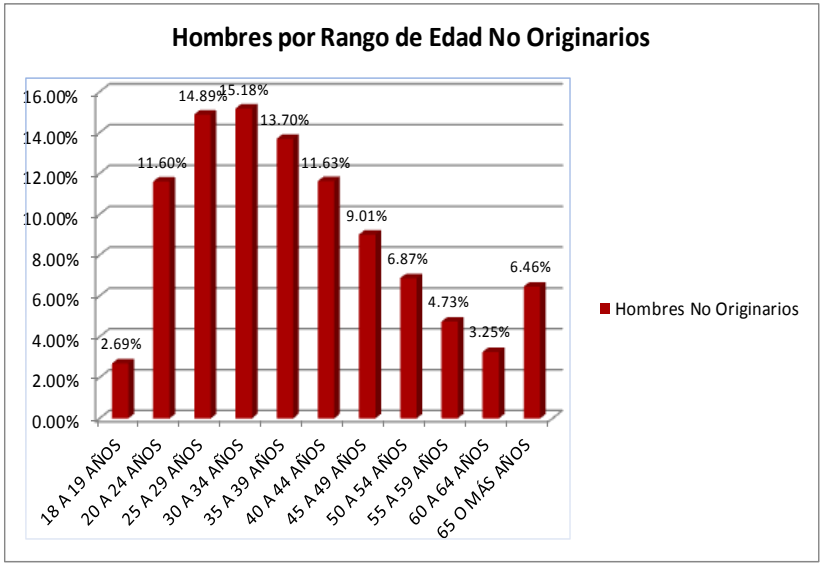


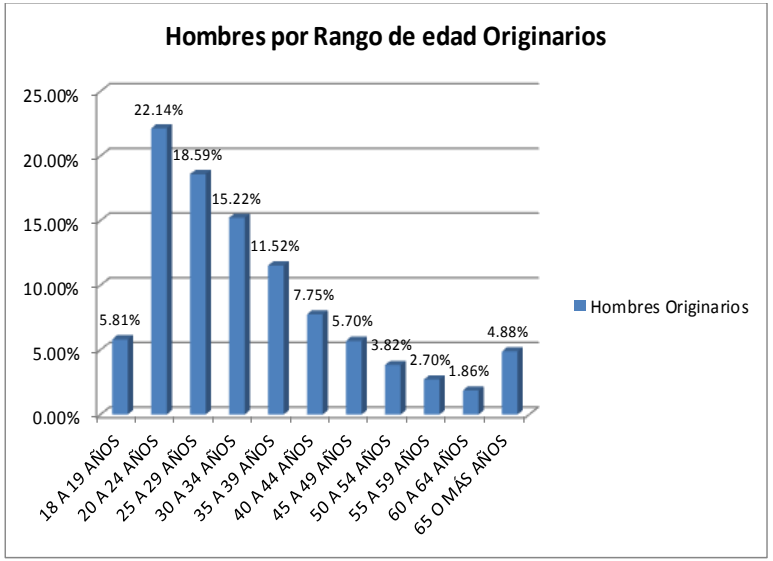
En el gráfico se observa que el comportamiento de las mujeres originarias y no originarias del Estado de México, presenta cambios significativos de acuerdo a la edad que éstas ostentan y su falta de participación difiere considerablemente de acuerdo a su edad y su status de origen.

ESTUDIO SOBRE EL PERFIL DE CIUDADANOS QUE NO VOTARON EN LA ELECCIÓN DE DIPUTADOS A LA LEGISLATURA Y MIEMBROS DE LOS AYUNTAMIENTOS 2012

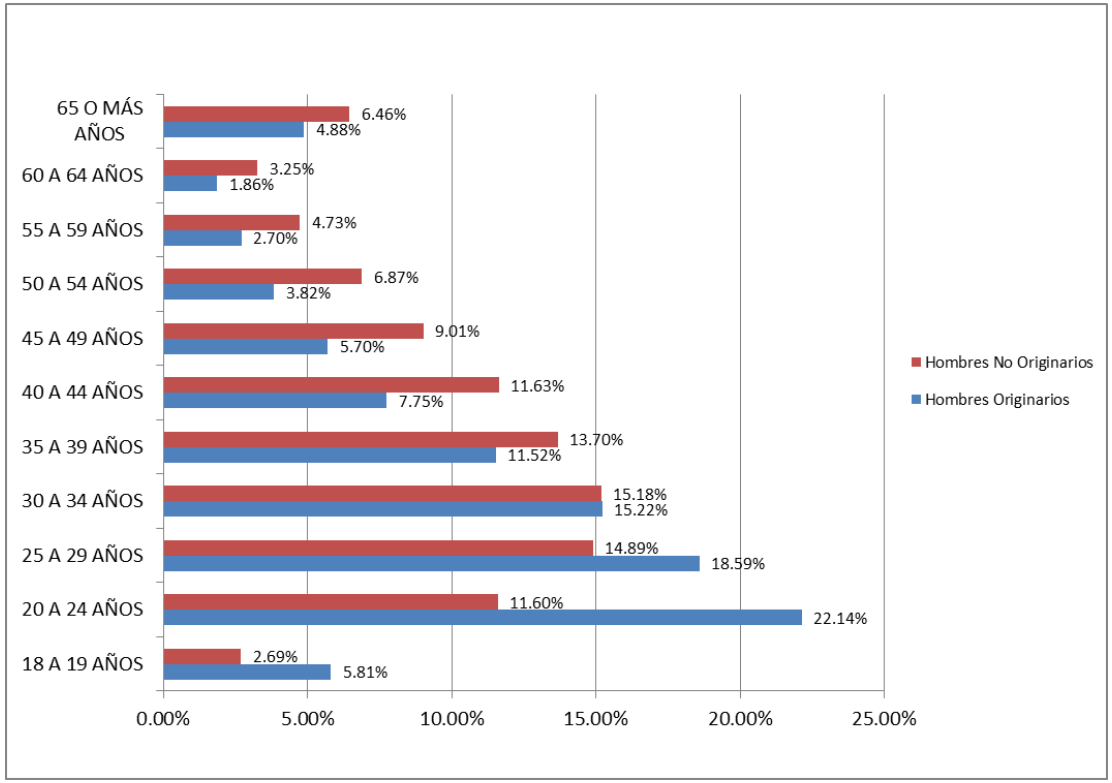
CUADRO DE FRECUENCIAS Y GRÁFICAS, POR **RANGOS DE EDAD, DE LOS HOMBRES ORIGINARIOS Y LOS NO ORIGINARIOS** QUE NO VOTARON

Rangos de Edad y Genero	18 A 19 AÑOS	20 A 24 AÑOS	25 A 29 AÑOS	30 A 34 AÑOS	35 A 39 AÑOS	40 A 44 AÑOS	45 A 49 AÑOS	50 A 54 AÑOS	55 A 59 AÑOS	60 A 64 AÑOS	65 O MÁS AÑOS
Hombres Originarios	5.81%	22.14%	18.59%	15.22%	11.52%	7.75%	5.70%	3.82%	2.70%	1.86%	4.88%
Hombres No Originarios	2.69%	11.60%	14.89%	15.18%	13.70%	11.63%	9.01%	6.87%	4.73%	3.25%	6.46%
Total	4.08%	16.31%	16.54%	15.20%	12.73%	9.89%	7.53%	5.51%	3.83%	2.63%	5.75%





GRÁFICA POR RANGOS DE EDAD DE HOMBRES **ORIGINARIOS Y NO ORIGINARIOS** QUE NO VOTARON DEL ESTADO DE MÉXICO



La situación de los hombres es muy similar a la observada con las mujeres, aunque muestra cambios significativos en los porcentajes, no obstante la no participación de éstos al igual que en las mujeres también difiere considerablemente de acuerdo a su edad y status de origen.

CONCLUSIONES Y APORTACIONES GENERALES

Con base en los resultados obtenidos derivados del estudio del perfil del ciudadano que no ejerció su derecho al voto en las elecciones de Diputados a la Legislatura y Miembros de los Ayuntamientos 2012, se concluye que de la base de datos resultante de la información extraída de las 985 casillas objeto del estudio, se observa lo siguiente.

PERFIL DEL NO VOTANTE DE ACUERDO AL GÉNERO

En cuanto a la frecuencia de los resultados globales obtenidos por género de los ciudadanos que no votaron, se observa que fueron más los hombres que las mujeres que no ejercieron su derecho a sufragar el 1 de julio de 2012, en razón de que de los 223,768 ciudadanos que no votaron (que representa el 37.57% de la lista nominal objeto de estudio), 122,386 fueron del género masculino representando el 54.69%, mientras que 101,382 fueron del género femenino lo que equivale al 45.31% de los no votantes.

Al comparar los porcentajes estadísticos de la lista nominal proporcionada por el Registro Federal de Electores y utilizada en la jornada electoral del 1 de julio de 2012 (cuya cifra estatal fue de 10’396,537 electores, de estos; 5’420,953 eran mujeres y 4’975,584 eran hombres, que representaban el **52.14%** y **47.86%** respectivamente) con los resultados obtenidos en el estudio observamos que éstos presentan una variación del **6.83%** en ambos géneros *(52.14 % - 45.31%= **6.83**%) y (47.86% - 54.69%= **-6.83**%)*, siendo positivo para el caso de las mujeres y negativo en los hombres, por lo que se concluye que por género, existió un menor porcentaje de abstencionismo por parte de las mujeres mexiquenses respecto de los hombres.

PERFIL DEL CIUDADANO QUE NO VOTÓ POR ENTIDAD DE ORIGEN

De los 223,768 ciudadanos que no votaron, resultantes del procedimiento informático de depuración de la información ya capturada procedente de los 985 cuadernillos de la lista nominal de electores que conformaron la muestra estadística de las 1,005 casillas seleccionadas en el estudio previo del perfil del votante, 98,557 ciudadanos que equivale a **44.04**% son originarios del Estado de México y 125,211 que representan el **55.96**% no son originarios de la entidad; de estos últimos la gran mayoría son originarios del Distrito Federal (73,571 ciudadanos que equivalen **32.88**% del total de ciudadanos no votantes), y 51,319 ciudadanos que significan el porcentaje restante de 22.94% de ciudadanos no votantes

son de otras entidades. Asimismo, se registraron 99 ciudadanos (0.04% del total) que tienen doble nacionalidad y 222 (0.10% del total) que son ciudadanos naturalizados mexicanos, residentes en el Estado de México.

Finalmente es importante mencionar que de acuerdo a los datos estadísticos por entidad de origen proporcionados por el Registro Federal de Electores, la lista nominal utilizada en la jornada electoral del 1 de julio de 2012, cuya cifra estatal fue de 10'396,537 electores, 4'845,009 eran originarios y 5'551,528 eran no originarios, que representaban el **46.60% y 53.40%** respectivamente. Datos que, al ser comparados con los obtenidos en el estudio se observa una diferencia poco representativa tanto de originarios como de no originarios de **2.56%** contra los porcentajes de la lista nominal (46.60% - 44.04%= 2.56%) y (53.40% - 55.96%=-2.56%), siendo positivo para el caso de los originarios y en los no originarios negativo. De lo anterior se puede concluir que en la elección coincidente del 1 de julio de 2012, el porcentaje de los ciudadanos que no votaron es mayor en los no originarios, tanto por la proporción con base en la composición de la lista nominal como en términos reales, pues la variación del **2.56%** refleja que en esa medida fue mayor el porcentaje de ciudadanos no originarios que no votaron.

PERFIL DEL NO VOTANTE POR RANGOS DE EDAD

Resultado del procedimiento informático de depuración de la información ya capturada procedente de los 985 cuadernillos de la lista nominal de electores que conformaron la muestra estadística de las 1,005 casillas seleccionadas en el estudio del perfil del votante, que arrojó un total de 223,768 de ciudadanos que no votaron, se puede decir que el rango de edad más alto de ciudadanos no votantes fue el de 20 a 24 años con el 16.19%, siguiéndole en segundo lugar el de 25 a 29 años con el 15.87%, y los más bajos el de 60 a 64 años con el 2.84% y el de 18 a 19 años con el 3.98%.

Por lo anterior, se realizó un cruce de variables para dar mayor claridad al perfil del no votante, obteniéndose los siguientes resultados:

PERFIL DEL NO VOTANTE POR RANGO DE EDAD Y GÉNERO

Al efectuar el análisis por rango de edad y género, el rango de edad donde existieron más ciudadanos que no votaron, para el caso de las mujeres fue en el rango de entre 20 a 24 años, con el **16.04%** y para los hombres lo fue en el rango de 25 a 29 años con un porcentaje del **16.54%,** en segundo lugar en las mujeres fue el de 25 a 29 años con el **15.06%** y en los hombres fue el de 20 a 24 años con el **16.31%**, lo cual

indica que si bien es cierto que en el Estado de México la incidencia de ciudadanos no votantes es mayor en los rangos de edad entre 20 y 29 años, también lo es, que al analizar el no votante a detalle por género y agregando la variable de rango de edad, se puede observar que en los dos rangos de edad con mayor porcentaje de no votantes, el género con mayor porcentaje es el masculino.

Además se aprecia que en un intervalo de edad de 18 a 44 años el porcentaje de no votantes es mayor en los hombres que en las mujeres, situación que se invierte a partir de los 45 años de edad, donde es menor la no participación de los hombres que de las mujeres.

PERFIL DEL NO VOTANTE POR RANGO DE EDAD, GÉNERO Y ENTIDAD DE ORIGEN

RANGO DE EDAD Y GÉNERO DE LOS ORIGINARIOS

Del cruce de las variables rango de edad, género y ciudadanos originarios que no votaron el 1 de julio del 2012, al efectuar el análisis por rango de edad y género, se observa que los porcentajes más altos de los ciudadanos que no votaron se tienen en los ciudadanos **originarios** del Estado de México, para el caso de las mujeres fue en el rango de edad de 20 a 24 años con el 21.97% y en los hombres en el rango de edad de 25 a 29 años con el porcentaje del 22.14%; en segundo lugar para el caso de las mujeres fue en el rango de edad de 25 a 29 años con el 17.10% y para los hombres en el rango de edad de 20 a 24 años con el porcentaje del 18.59%. Se aprecia que tanto en mujeres como en hombres, los porcentajes de no votación mayores se tiene en el intervalo de 20 a 29 años y va decreciendo mostrando crestas significativas en sus rangos, conforme van aumentando las edades, es decir, que la no participación de los ciudadanos originarios del Estado de México por rangos de edad fue mayor en los jóvenes que en los de mayor edad.

RANGO DE EDAD Y GÉNERO DE LOS NO ORIGINARIOS

Al realizar el mismo ejercicio con los ciudadanos no originarios que no votaron el 1 de julio del 2012, se aprecia que tanto mujeres como hombres alcanzan el porcentaje más alto de votación en el intervalo de 30 a 34 años, para ambos géneros con el 14.02% y 15.18% y en segundo lugar el rango de 25 a 29 años con el 13.50% y el 14.89% respectivamente. Ambos géneros muestran una relativa constante de baja participación en los intervalos consecuentes y subsecuentes, y decrece conforme aumentan o disminuyen las edades, es decir, que la no participación de los ciudadanos no originarios del Estado de México es mayor en los intervalos de edad de 20 a 44 años y ésta decrece

conforme aumentan o disminuyen las edades. Situación que es muy similar a lo que sucede con los originarios, lo cual nos deja en claro que la no asistencia a ejercer el derecho al sufragio en el Estado de México en la pasada elección del 1 de julio del 2012 no la determina la condición de ciudadano originario o no del Estado, ya que se presenta en ambos casos.

*RANGOS DE EDAD DE LAS **MUJERES** ORIGINARIAS Y NO ORIGINARIAS*

Sin embargo el comportamiento de la no participación de las mujeres originarias y no originarias del Estado de México, presenta cambios significativos de acuerdo a la edad que éstas ostentan y su falta de participación difiere considerablemente de acuerdo a su edad y su status de origen.

*RANGOS DE EDAD DE LOS **HOMBRES** ORIGINARIOS Y NO ORIGINARIOS*

La situación de los hombres es muy similar a la observada con las mujeres, también muestra cambios significativos en los porcentajes, y al igual que en las mujeres difiere considerablemente de acuerdo a su edad y status de origen.

Partiendo de los resultados obtenidos en el presente análisis de las variables de edad, género y entidad de origen que integran el estudio del perfil de los ciudadanos que no votaron el 1 de julio de 2012, se propondrán para el próximo proceso electoral líneas de acción mediante el programa de Promoción y Difusión de la Cultura Política Democrática, que permitan incrementar la participación de los ciudadanos de 20 a 44 años en los procesos electorales venideros. Las acciones que habrán de emprenderse en materia de Promoción y Difusión de la Cultura Política Democrática y de Promoción del Voto, deberán considerar los resultados observados en el estudio sobre el perfil del no votante, focalizando las acciones en los sectores específicos de la ciudadanía cuya participación es baja, tomando en cuenta el género, los rangos de edad y las zonas, de acuerdo a lo que se aprecia en los resultados por distrito y municipio del presente estudio.

Cabe hacer la acotación de la muestra es estatal estratificada por distrito inicialmente aprobada para la realización del Estudio del perfil del votante, en donde un total de 8 municipios no fueron considerados dentro de esta muestra debido a que el tamaño de su lista nominal y la cantidad de casillas no era representativo para ser incluidos al interior de sus respectivos distritos.

Los 12 municipios que no fueron considerados en las tablas de frecuencias a nivel municipal y la causa por la que no se incluyeron, son los siguientes:

CUADRO 1

Municipios no considerados en la Muestra del Estudio del Perfil del Votante	
Almoloya del Río	Ixtapan del Oro
Atizapán	Papalotla
Ayapango	Texcalyacac
Chapultepec	Zacazonapan

CUADRO 2

Municipios no incluidos por no haberse localizado el Cuadernillo de Lista Nominal	
Apaxco	Rayón
Malinalco	Ozumba

Los 4 municipios del Cuadro 2 no fueron considerados en el Estudio debido a que no se localizó ninguno de los cuadernillos de lista nominal de las casillas de las secciones seleccionadas en la muestra señalada en el protocolo de Estudio del Perfil del Votante, razón por la que no pudieron ser sustituidos por algún otro cuadernillo de la misma sección como se establecía en ese protocolo.

Es importante mencionar que se desconocen los motivos por los que no se encontraron dichos listados nominales, razón por la cual se propone que el Instituto instrumente una política pública cuyo objetivo para futuros procesos electorales sea obtener toda la documentación que generen las Mesas Directivas de Casilla el día de la jornada electoral, misma que se detalla en el apartado siguiente correspondiente a “Líneas de Acción”.

LÍNEAS DE ACCIÓN

Derivado de los resultados alcanzados en el análisis de las variables de rango de edad, género y entidad de origen que conforman el perfil del ciudadano que no votó en las elecciones de Diputados Locales y Ayuntamientos en el año 2012, se sugiere llevar a cabo como líneas de acción para el siguiente proceso electoral 2014-2015 en materia de capacitación electoral y en promoción y difusión de la Cultura Política Democrática las siguientes actividades:

- En materia de promoción y difusión de la cultura política democrática y educación cívica, realizar actividades de carácter motivacional vinculadas al sector empresarial, público, privado, sindical, organizaciones sociales, cámaras, entre otros, que atraigan al género masculino mayores de 18 años a votar en las próximas elecciones del 7 de junio de 2015.

- Continuar con actividades de fortalecimiento en cultura política democrática de forma institucional, abarcando a jóvenes de nivel medio superior en adelante, considerando que este nivel escolar está conformado en su mayoría por jóvenes del grupo de población de 15 a 18 años, y que en el nivel de educación superior se ubican los jóvenes mayores de 18 años, por lo que en estos dos niveles de escolaridad están los segmentos de quienes adquirirán la condición de ciudadanos en un futuro cercano y de quienes, ya como ciudadanos, votan por primera vez. De acuerdo con cifras de la Secretaría de Educación del Estado de México[1], en el ciclo escolar 2011-2012 la matrícula del nivel medio superior era de 531,364 jóvenes inscritos (11.8% del total de la matrícula escolar de todos los niveles), en tanto que en el nivel superior era de 338,418 (7.5% del total); de ahí la importancia de continuar con estas actividades en estos niveles educativos.

- Continuar desarrollando actividades en pro de una cultura política en los niños de nivel preescolar, primaria y secundaria para que en un futuro participen votando y cumpliendo con sus actividades democráticas.

- Integrar en los Programas de Actividades de las diferentes áreas del Instituto, la elaboración de estudios que permitan contar con datos a nivel municipal a fin de realizar estudios del perfil del votante y del no votante, de tal forma que estos estudios se realicen por los Órganos Desconcentrados, de forma sistemática al término de la Jornada Electoral.

Instrumentar dos políticas públicas por parte del Instituto Electoral del Estado de México

Política pública 1

Problema 1: Extravío de listados nominales.

Derivado de no encontrar todos los listados nominales contemplados en la muestra inicial de 1,005, se obtienen resultados con sesgo ya que solamente se encontraron 985 listados nominales que representan el 98.01% del total de la muestra. Razón por la cual no se obtuvieron los 1,005 listados nominales contemplados para el estudio.

Objetivo: Obtener toda la documentación que generaron las mesas directivas de casilla el día de la jornada electoral.

Instrumentación: desarrollar un programa en el cual se especifiquen tramos de control para los responsables de recibir la a efecto de mejorar .

1. Hacer un diagnóstico de los listados nominales (Documentación electoral) no encontrados para discutir la implementación de una posible innovación en la entrega recepción de la documentación electoral, como ejemplo, el Instituto Electoral del Distrito Federal, mediante el sistema de identificación de los documentos durante la recepción a través de código de barras y mediante un scanner, lo que permite mayor agilidad en este proceso.

Problema 2: Poco control en la lista de Representantes de partidos en MDC

El Instituto tendría que tener un listado de representantes derivado de la documentación electoral que maneja, donde se asientan los nombres de los representantes de Partido, con la cual se pudiera cruzar contra los resultados de próximo estudios.

Objetivo: Tener un registro de los representantes de los partidos que fungieron en el día de la Jornada Electoral.

Instrumentación: Desarrollar un procedimiento de recopilación de datos de los representantes de partidos que fungen en la jornada electoral.

Política pública 2

Problema 1 "Metodológico Logístico"

Se observa que aun y cuando se tiene una logística establecida para la recepción de la documentación electoral no resulta ser eficaz, razón por la cual, se obtuvo un número inferior de listados nominales para la elaboración del estudio.

Problema: Extravío de documentación después de la jornada electoral

Objetivo: Obtener toda la documentación que generaron las mesas directivas de casilla el día de la jornada electoral.

Instrumentación: incluir en los programas que permita perfeccionar la capacitación lo referente a la entrega completa de documentación.

En los programas de capacitación para los funcionarios de mesas directivas de casilla deberá incluirse la importancia de entregar la documentación completa (en caso de que exista una diferencia menor o igual a 1% entre el primero y el segundo lugar, impugnaciones de los partidos políticos que requiere entregar la documentación a los tribunales, estudios sobre el perfil del votante) para que se evite el extravío de la documentación.

Problema 2 "Abstencionismo"

No existen estudios de diagnóstico que permita articular el diseño de planes o programas Institucionales.

Conforme a los resultados obtenidos, la población joven y del género masculino (20 a 29 años) son los que tienen el menor porcentaje de participación en elecciones.

Aunado a estos resultados, se debería de relacionar con los resultados obtenidos y su metodología de aplicación de los siguientes estudios:

Estudios de opinión:

- 2011: Estudios realizados por la Universidad Autónoma del Estado de México en julio y agosto
- 2012: Estudio realizado por la Empresa "Parámetro Consultores, S.A. de C.V." en julio
- 2013: Estudio realizado por la consultoría "Olivares Plata Consultores, S.A. de C.V." en mayo

Estudios:

- Complementar los resultados con los obtenidos del estudio del Perfil del Votante 2012.
- Contemplar los estudios publicados por el entonces Instituto Federal Electoral como lo son: el "Informe País sobre la calidad de la ciudadanía en México", "Estudio Muestral de las Boletas, "Estudio censal sobre participación ciudadana Elección federal 2009"

Problema: Baja participación de la población joven y del sexo masculino.

Objetivo: Realizar un diagnóstico Multidisciplinario que nos permita involucrar a las áreas de Organización, Capacitación y la Unidad de Comunicación social del IEEM.

Instrumentación: diseñar una estrategia de comunicación global, que incluya a todas las áreas del Instituto.

- Incentivar campañas de comunicación en medios electrónicos.
- Evaluación de las actividades de promoción del voto (impacto en la población) y promoción de la Cultura Política Democrática.
- Realización de actividades recreativas en toda la entidad dirigidas a la población joven.
- Diseño de piezas de comunicación orientadas a jóvenes menores de 29 años, en particular a los primovotantes.

ANEXOS

ANEXO 1

Bitácora

del Procedimiento informático de depuración de la información ya capturada procedente de los 987 cuadernillos de la Lista nominal de electores que conformaron la muestra aleatoria de las 1,005 casillas seleccionadas en el Estudio del perfil del votante, llevado a cabo en fecha 28 de marzo de 2014

Introducción

En atención al Acuerdo del Consejo General No. IEEM/CG/04/2014 referente a desarrollar un procedimiento informático de exclusión de los datos que ya fueron capturados para la elaboración del Estudio sobre el perfil del votante, a efecto de obtener los datos de aquellos ciudadanos que no votaron en la elección del 1 de julio de 2012; se llevó a cabo dicho procedimiento en presencia de la Lic. Martha Elba Terrón Mendoza, Notaria Pública No. 146 del Estado de México, de Consejeros electorales, Mtro. Jesús Castillo Sandoval, Mtro. Arturo Bolio Cerdán, Mtro. Juan Salvador Hernández Flores; del Secretario Ejecutivo General, representantes de partidos políticos, así como integrantes de la Secretaría Ejecutiva General, de las direcciones de Organización y Capacitación y de la Contraloría General.

El procedimiento informático lo realizaron los ingenieros Pablo Carmona Villena y José Luis Villegas Moreno, quienes utilizaron una computadora de donde se proyectaba hacia una pantalla lo que se fue realizando, esto a la vista de todos los presentes.

Desarrollo del procedimiento

1. Se recibieron de la Secretaría Ejecutiva General los discos que contenían la lista nominal de electores definitiva que se utilizó en la jornada electoral del 1 de julio de 2012, uno de los discos contenía la lista nominal en archivos con extensión .TXT, mientras que el otro disco contenía una aplicación automatizada para descifrar la lista nominal, esta aplicación utilizó una clave que venía impresa en una hoja tamaño carta.

ANEXO 1 - Bitácora

2. La descompresión y descifrado de los datos que contenía el disco de la lista nominal se realizó una vez que se digitó en dos ocasiones la clave de uso de la aplicación, ya que en la primera ocasión se cometió un error en la transcripción de la clave.
3. Se detectó que la información se encontraba en dos carpetas de archivos: la primera con los archivos de los 45 distritos locales y la otra enunciada como extraordinarias, contenía los datos de las casillas de aquellas secciones donde se instaló al menos una casilla extraordinaria; se llegó a esta conclusión con ayuda del Lic. Octavio Morales Peña, quien comentó que así se diferenciaban los cuadernillos previo a la jornada electoral, además de que se confirmó con los distritos que se encontraban en dicha carpeta.
4. Se imprimió un archivo en hoja electrónica que describía los campos incluidos en los archivos, se adjunta la impresión que se obtuvo (ver el Anexo 3), el cual indica que es un archivo en código ASCII, separando los campos con el carácter pipe line (|).
5. Después se inició con la selección de la lista nominal de las 985 casillas objeto de este procedimiento, no se tuvo ningún inconveniente con la carpeta de las secciones donde no se instalaron casillas extraordinarias.
6. Los contratiempos se presentaron en el momento de la selección de la información de las secciones con al menos una casilla extraordinaria. Inicialmente se realizó el procedimiento de selección con los archivos que contenían las secciones con al menos una casilla extraordinaria; se contabilizó la cantidad de casillas de las cuales se obtuvieron los datos y no coincidió con las 985 que debían ser. Al revisar el archivo resultante se detectó que no se obtuvieron datos de algunas casillas extraordinarias, esto ocurrió porque la nomenclatura de las casillas extraordinarias que se utiliza en el IFE difiere de la que se utiliza en el IEEM, así por ejemplo, el IFE conoce algunas casillas como 'Extraordinaria 1 Básica' y en el IEEM se le identifica como "Extraordinaria 1"; con el auxilio del Lic. Octavio Morales de la Dirección de Organización se consiguió una relación de las nomenclaturas que se utilizan en el IFE y se pudieron deducir las equivalencias en las nomenclaturas para efecto de seleccionar las casillas faltantes.

ANEXO 1 - Bitácora

7. Nuevamente se verificó la cantidad de casillas de las cuales se tenía información y ahora resultaron tres casillas de más, se contabilizaron las casillas por distrito electoral local, se detectó el distrito donde existía la diferencia –el XXXVIII de Coacalco- y al revisarse las casillas de donde se tenían datos, nos dimos cuenta que se incluyeron datos de tres casillas extraordinarias que tenían en común -con la única que debió ser seleccionada- el hecho de que el número de su nomenclatura iniciaba con el dígito Uno; se eliminaron los datos de las sobrantes y tuvimos la información de las 985 casillas indicadas.
8. En el archivo seleccionado de las 985 casillas se obtuvo de la clave de elector el dato que contiene la fecha de nacimiento, la entidad de origen y el género de los ciudadanos para que sirviera de comparación contra los datos capturados en el Estudio del perfil del votante.
9. Inmediatamente después se realizó una consulta mediante query (con el comando Select) para separar los registros que habiendo sido capturados en el Estudio del perfil del votante se encontraran en la Lista nominal, resultaron ser 370,347 registros de los 383,444 registros capturados.
10. En cumplimiento al objeto del Acuerdo No. IEEM/CG/04/2014 se obtuvieron los registros de los ciudadanos que estando en la Lista nominal de la jornada electoral del 1 de julio de 2012, no se encontraron dentro de la base de datos de los registros capturados en el Estudio del perfil del votante; resultaron ser 223,768 ciudadanos, esta actividad también se realizó utilizando el query (Select) consultando las dos bases de datos: la Lista Nominal y la capturada en el IEEM.
11. Después se borraron las carpetas de los archivos de la Lista nominal facilitada por la Secretaría Ejecutiva General, así como los datos de nombre, domicilio y clave de elector de las bases de datos de la Lista nominal de las 985 casillas del Estudio, de los registros encontrados y de los registros no encontrados.
12. Se obtuvo una copia en disco compacto de los archivos siguientes: los registros de la Lista nominal de las 985 casillas, los registros capturados en el Estudio del votante que fueron encontrados en la Lista nominal y el archivo que contiene los registros capturados en el IEEM y que no fueron encontrados en la Lista nominal.

13. Finalmente, la computadora fue envuelta, el disco compacto fue colocado en un sobre; ambos fueron sellados y firmados por los interesados, quedando bajo resguardo de la Secretaría Ejecutiva General.

Con esto se dio por concluido el Procedimiento de selección de los registros de la Lista nominal que no se capturaron en el Estudio del perfil del votante.

ANEXO 2

Procedimiento informático para obtener a los ciudadanos que no votaron de la lista nominal que se utilizó en la jornada electoral del 1° de julio de 2012.

En atención al Acuerdo del Consejo general No. IEEM/CG/04/2014 donde se establece la necesidad de excluir los datos que ya fueron capturados en el Estudio sobre el perfil del votante, se realizarán las siguientes acciones:

- **Recibir** de parte de la Secretaría Ejecutiva General el (los) disco (s) que contiene (n) la lista nominal definitiva de la elección de 2012.
- **Copiar** dicha información a una computadora que se utilizará en este procedimiento, la computadora contiene los elementos de software necesarios para realizar el procedimiento; una vez que la información original se haya copiado será devuelta a la Secretaría Ejecutiva General.
- **Conocer** la integración de la información, esto es, los datos que están contenidos en el archivo, el orden en que se encuentran y la delimitación de los mismos; se imprimirá la estructura del archivo para poder realizar convenientemente el procedimiento.
- **Seleccionar** la información objeto del estudio, a saber, 985 casillas, toda vez que no se registraron datos de las casillas siguientes: 5293 B y 221 B porque el cuadernillo no contenía la palabra VOTÓ en ningún ciudadano.
- **Eliminar** la información de la lista nominal de las casillas que no son objeto del estudio, de esta forma solamente trabajaremos con los datos de 985 casillas.
- **Eliminar** de la lista nominal de las casillas seleccionadas los campos de información que no se utilizarán, por ejemplo, el nombre y el domicilio.
- **Preparar** la información para realizar la exclusión de quienes ya fueron registrados en la base de datos de los votantes.

Anexo 7

ANEXO SIETE: **FICHA METODOLÓGICA DEL ESTUDIO**

FICHA METODOLÓGICA	
Población objetivo:	Las 17,258 casillas instaladas en la elección de diputados y miembros de ayuntamientos por tipología (básica, contiguas y extraordinarias)
Tamaño de la muestra:	1,005 casillas instaladas
Nivel de confianza:	95%
Error muestral:	+/- 3.0%
Tipo de muestreo:	Aleatorio simple estratificado, con afijación proporcional por distrito y municipio

Esta muestra fue obtenida para realizar el estudio del perfil del votante 2012, no obstante, solo fueron encontrados los cuadernillos de 985 casillas (20 casillas menos de la muestra original); por lo que el resultado en primera instancia no representa el 100 de la muestra seleccionada.

En el estudio del perfil del No votante se utilizó la información de las 985 casillas, y la base de datos para el presente Estudio está conformada por **223,768** ciudadanos (que representa el 37.57% del total de 595,676 ciudadanos inscritos en las listas nominales de las 985 casillas objeto de estudio).
